Highfield e-learning®

Level 2 Fire Safety

Highfield has drawn upon the knowledge and expertise of its health and safety subject matter experts to create this fire safety e-learning course. This course is available online through the Highfield Learning Management System, which gives managers the ability to monitor, manage and record training activity.

QUALITY ENDORSED

THE QUEEN'S AWARDS FOR ENTERPRISE: 2016

Who should take this course?

This course is suitable for all those involved with fire safety in the workplace. This includes managers, supervisors, team leaders, fire wardens (marshals) and staff working in any area where there is a potential risk of fire. It is also ideal for anyone taking a Level 2 fire safety qualification.

What does it cover?

There are a total of four training modules included in this course that cover the key syllabus of Level 2 fire safety qualifications. Each module has a total of five multiple-choice questions at the end to test learner knowledge. These modules include:

- **Introduction to fire safety**
- **The characteristics of fire**
- **Fire safety legislation**
- **Assessing and managing risk**

What will learners achieve?

Learners taking this course will recognise that fire safety is the responsibility of everyone in the workplace and will recognise the consequences of a fire in any premises. Subject to the satisfactory completion of this course, learners are given access to an electronic Highfield quality endorsed certificate of completion (in PDF format), which they are able to print and display.

Course features

Features for the Learner:
- Content suitable for Level 2 Fire Safety qualifications;
- Interactive content and exercises based on real-life scenarios; and
- Assessments included at the end of every module.

Features for the Course Owner:
- Learner management system, including user groups;
- Licence management for more cost-effective training; and
- Expanded reporting, including assessment feedback.
